

The Hatchback Annex Tent

Sleep Off The Ground in The Comfort of Your Own Vehicle!

By simply tying up the vehicle sleeve with the dowel and loop fasteners, you can easily disconnect the SUV Tent from your vehicle to go about the day's adventures.

The tent is outfitted with several intuitive features for your convenience, including (2) gear pockets for cell phones, glasses, and small personal items, an overhead lantern hook, glow-in-the-dark zipper pulls, and a water-resistant PE bathtub floor.

The tent's no-see-um mesh windows and doors have storm covers that can be closed for privacy, or left open to allow in fresh air and sunlight (while keeping bugs out!)

The Rightline Gear SUV Tent lets you camp without leaving all the luxuries of home behind. The adjustable nature of the vehicle sleeve allows the tent to connect to the back of any SUV, minivan, crossover, wagon, Jeep Wrangler hard top, or pick-up truck with cap, WITH or WITHOUT a roof rack. The tent works for vehicles with a rear hatch door or rear barn doors. Use the back of your vehicle as a sleeping area, for storage, or to power electronic devices. Use the SUV Tent as a changing room or as a sleeping area for family or friends.

This tent has room to spare, so invite everyone along on your next camping outing. Remember, the Rightline Gear SUV Tent comes at a fraction of the cost of any camper!
